#### Add a title \*

show line with discount in invoice

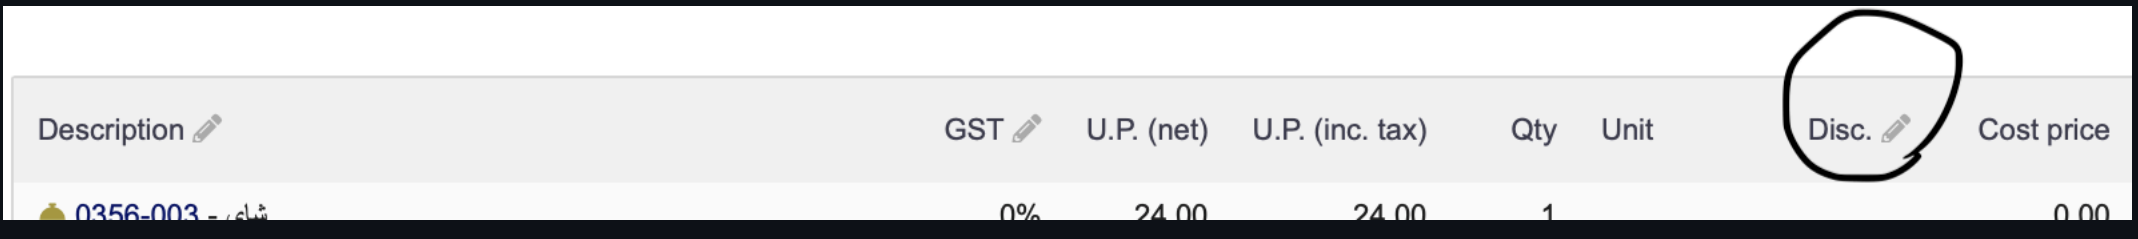

This is a template to help you report good issues. You may use [Github Markdown](#) syntax to format your issue report.

#### Feature Request \*

Short description

Write Preview

need to see invoice with discount with discount mark in the invoice list or different color [

](url)

Paste, drop, or click to add files

#### Use case

Verbose description

Write Preview

when making discount in the invoice the only way to see which invoice have discount is by preview one by one and this take very long time or export invoice details in excel then make some formula to compare qty x unit price with total amount, if not the same amount so we have discount here and this also take some time and not all users able to do that easy

Paste, drop, or click to add files

#### Suggested implementation

Verbose description

Write Preview

you may ad column in the invoice list to announce there is a discount in this invoice, if this hard you may add filed remise\_percent to the export fields from invoice lines

Paste, drop, or click to add files

#### Suggested steps
